Employment History

IT ANALYST/INTERN, MTN, LAGOS, NIGERIA

June 2019 - January 2020

I worked as an IT Analyst during my time in the company. I lead integrations into the company system by providing correct and proper architecture designs. I analyzed the capabilities of embedded systems and their on the overall company network. I worked with web and app developers to produce amazing optimized products. However some of my key experiences were:

- Analysing new features, functionality and capabilities on the business integral systems to prevent business failures.
- Recommending solutions for a streamlined, user-friendly interface with the design team.
- Performing bug fixes and code reviews. Technical debt reduced by 32% within first month.
- Building stable and maintainable codebases using Vue js
- Assisting with the transition from a waterfall method to the more efficient Agile methodology.
- Ensuring proper documentation and reports in all stages of product life cycles.

SOFTWARE ENGINEER, Basscomm Nigeria, LAGOS

January 2019 - May 2019

I worked on optimizing their existing systems as well as designing posters and flyers to generate income for the via social media. I also started working on User Interface and Experience of the company website for better customer experience using VUE js. Some of my key experiences were:

- Building stable and maintainable codebases using Vue js
- Implementing a desktop-first approach to existing websites.
- Researched and designed attractive and informative identity cards for business use.
- Creating modular, responsive templates using modern CSS techniques and JavaScript libraries.
- Working directly with client stakeholders to develop technical solutions for business cases.
- Designing and implementing HTML email templates and newsletters for marketing campaigns.
- Leveraging responsive web frameworks to complete deliverables ahead of schedule.

Education

Diploma Computer Science, University of Lagos, Nigeria.

September 2015 - June 2016

Bsc. Computer Science, University of Lagos, Nigeria.

January 2016 - 2020

Extra-Curricular Activities

SOFTWARE ENGINEER, NG_HUB from facebook, LAGOS, NIGERIA

January 2020 -

I was employed as a volunteer by NG_HUB to help design and revamp their existing website for present and future events and hackathon. Here are some of my key experiences:

- Manipulating wordpress CMS to produce amazing UI/UX.
- Working with Wordpress Plugins to enhance website performance.
- Using C# with Unity to develop resounding VR Experiences.
- Showcasing futuristic development in VR to public schools.
- Ensure top-notch technicality responsiveness during events.
- Giving reliable input during planning and exercising dependable team work.

TECHNICAL SUPPORT, Codefest, LAGOS

September 2016 - December 2018

I worked as a volunteer at first then was an ambassador for the organization. Codefest specialized in STEM for students and internship guidance for companies. I helped to facilitate their events as well as give technical advice. During my time I learnt to use:

- Wordpress CMS system
- Javascript and AJAX
- Learnt SCRATCH language to teach kids.
- I helped to set up technicals during events.
- Developed a good understanding of Social media channels and systems to manage them.

Ambassador, BITGRIT, JAPAN

September 2016 - December 2018

BITGRIT is a decentralized AI organization community that aims to improve the lives for students and organizations by hosting events and competitions. As their ambassador in Nigeria, I was tasked with hosting events and competitions here in Nigeria.
